Wander Handles All The Details:

All installation costs, customer service, billing and maintenance

Our rooftop installation is minimal with all equipment under 1' in diameter

Bring Wander to your building! Apply at <https://wander.net/becomeapartner/>

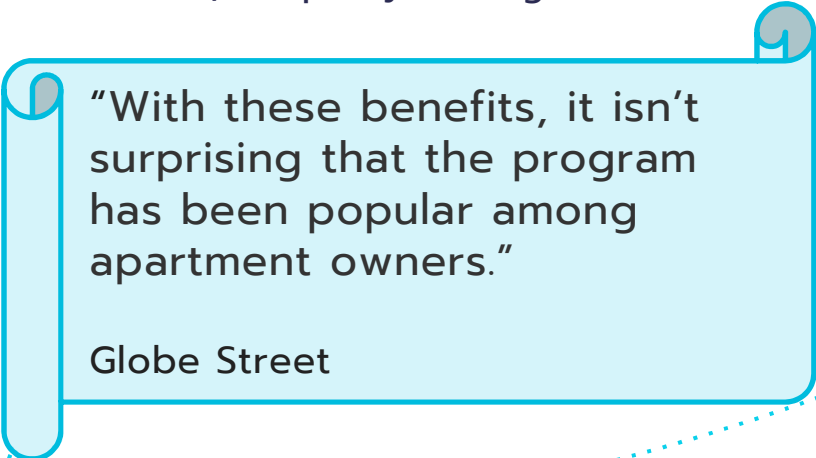

"Getting internet is one of the first steps our tenants take when they move in. Before having Wander, it's been a frustrating and time-consuming process that involves invasive installation and six-hour waiting windows for our tenants. We're thrilled to finally be able to offer a valuable internet service that saves time and money, and is truly a win-win for all."

John Landsberger
Property Owner & Wander Partner

What are our partners saying?

"Our tenants have been thrilled to have a reliable, fast internet alternative in the building and we are so happy to have Wander as a differentiator for our building, especially with how easy it is to work with Wander team. Thanks, Wander for providing amazing service!"

Deborah, Property Manager

A light blue rounded rectangular box with a scroll effect on the top and bottom edges, containing a quote.

"With these benefits, it isn't surprising that the program has been popular among apartment owners."
